

VARIETY NT BASH VEHICLE COMPLIANCE CHECK LIST 2025

This checklist is to be used as a guide by Bash car owners to ensure they have attended to these requirements prior to presenting the Bash car for inspection and sign off by a registered mechanic. **Only Bash cars that have had their compliance check list signed off by a registered mechanic will be allowed to participate.**

FRONT		REAR	
BALL JOINTS		BUSHES	
KING PINS		TIE RODS	

BRAKES			
OPERATION FOOT		HAND BRAKE	

CONDITION LINES STEEL AND RUBBER			
FLUID LEAKS		LININGS	

In no way does this Bash worthiness process negate the vehicle owner from their responsibility to register and maintain the vehicle to road worthiness standards as set down and enforced by the state that the vehicle is registered in. This checklist is to assist the vehicle owner to consider the remote and sometimes rough nature of roads used during the Variety NT Bash. It is the responsibility of the registered owners of Bash vehicles to ensure that any modifications to their vehicles comply with the regulations as set down by the State in which the vehicle is registered in.

You may request the assistance of mobile workshop crews for emergency repairs to your vehicle during the Bash. These are considered temporary repairs only and should be checked by a qualified person at the first opportunity. Variety NT nor the mobile workshop crew involved take any responsibility for the repair.

EXTERNAL FITTINGS			
TOW HITCH FRONT		REAR	
FLASHING LIGHT -		WIPERS	
ROOF LEVEL		WASHERS	
SUMP GUARD
