

Emergency + iPhone and Android App

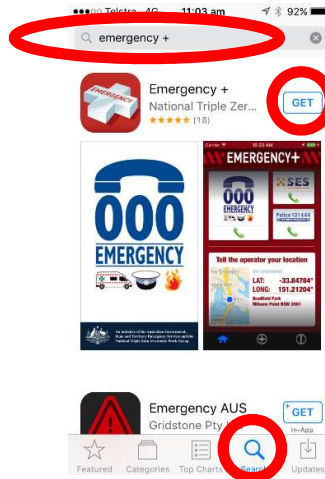

To find your exact location, please give your GPS Coordinates found in the Emergency + Application or inbuilt compass function.

When possible, coordinates are preferred in degrees. decimal eg - 34.09872

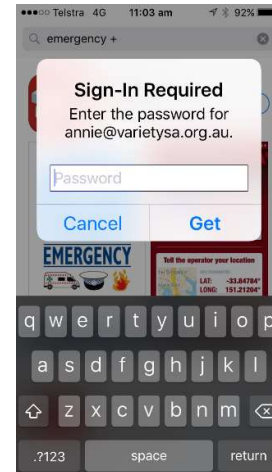

Download from the Android or Apple Apps Store

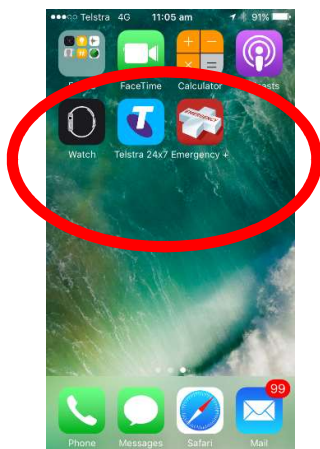

Open your App Store

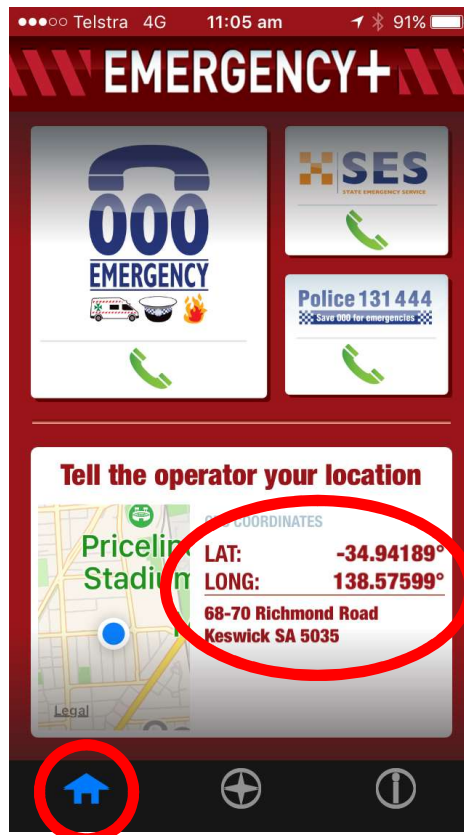

Open your App Store
Use the search icon and enter
"Emergency +" and press Get
Then Install

Enter your password for your apple id/ google id
The app is free to download.

Open the Emergency + icon on the home screen
Setup by pressing Yes/Allow access to location.

These numbers are your position.

LAT: - 34.94189
LONG: 138.57599

This will work even if you do not have mobile phone reception

The address is only helpful when in town.
