

2021 Variety 4WD Adventure

Decal Placement Guide

Tips for applying your decals:

- Use a spray bottle with two drops of dish detergent
- Credit card/Rewards card is helpful for smoothing out air bubbles
- Use the line of the bottom edge of the glass to give you a reference for keeping the decals straight
- Only remove half of the back of the decal when applying
- The front and rear of the vehicle have been left clear to allow you to place your own sponsor decals
- You will need to organise your vehicle number 2x black and 2x white. Marine stores may have these as boat registration numbers
- Removal is best done after washing, and small amount of glue remover is sometimes helpful
